Over 1,800 exhibitors already registered for IDS

■ According to Koelnmesse, around 1,800 companies from 60 countries had already registered for the show by the end of January. After the largest exhibitor participation, which comes from Germany, the next strong est international participation currently comes from Italy, South Korea, France, Switzerland, Spain, Turkey and the US. Argentina, Brazil, Bulgaria, China, Israel, Italy, Japan, Hong Kong, South Korea, Singapore, Turkey and the US will be represented by group booths. This year, Halls 1, 2, 3, 4, 5, 10 and 11 of the Cologne fair grounds will be open for IDS visitors.

Withacompletely newbooth concept, innovative product highlights and exciting new ideas, Amann Girrbach will bring the world of digital dentistry to life for visitors. Amann Girrbach will be attending as an exhibitor with a completely new look. At the new booth location in Hall 1.2, visitors will be able to experience how digital workflows can sustainably facilitate daily routines in dental laboratories and dental practices and thereby set new standards in patient treatment.

Dr Wolfgang Reim, CEO of Amann Girrbach, said: "An incredible amount has happened at Amann Girrbach since the last'real' IDS in 2019. We have dedicated ourselves to digital transformation acrossawide spectrum, developing solutions aimed at making interdisciplinary collaboration between the dental practice and laboratory as convenient and versatile as possible."

In 2021, Dents ply Siron adid not participate in IDS, but it will have a significant presence at this year's event, and all its activities there will

be tied to the theme "United for better dentistry". Attendees are invited to experience the digital universe at Dentsply Sirona's immersive

1,900 m²booth.SituatedinHall 11.2,thebooth will feature the company's entire portfolio of products and solutions, which visitors will be

able to see in action through product demonstrations and live presentations.

"IDSoffersafantasticmomenttounitewith the global dental community, and we are eagerly looking forward to the next edition in 2023," said Gerard Campbell, group vice president for commercial in Europe, the Middle East and Africa at Dentsply Sirona. "We know that, through close collaboration and partnership, we can take dentistry to the next level and ultimately help bring healthy smilestomore people around the world."

Visitors to Planmeca's booth at IDS will be treated to exclusive demonstrations of the company sentire product portfolio and have the opport unity to learn more about Planmeca's new clear aligner solution, Hey Smile. Planmeca's representatives will also be offering expert guidance to dentists at the show. Located conveniently near the entrance to Hall 5, Planmeca's booth will be situated next to KaVo Dental, which joined Planmeca Group last year. Those looking to find out more about Planmeca's products and receive advice can head to Booth A020/C029 in Hall 1.

Jouko Nykänen, senior vice president at Planmeca,said: "Afteracoupleofyearsaffected bytheCOVID-19pandemic,wearetrulylooking forward to IDS 2023. Although we have found newwaystocommunicatewithourcustomers andpartnersremotely,nothingbeatstheenergy ofIDSandnetworkingwithdentalprofessionals inperson. Wecan'twaitforinspiringdiscussions and to demonstrate the intelligent features of our products at our booth at IDS 2023." ◀

IDS 2023 to place strong focus on periodontics

■ The 40th International Dental Show (IDS) is fast approaching. This year, the focus will be on periodontics,

odontal the rapy and prophylaxis and the importance of involving the dental patient in all four the rapy stages—

particularly with regard to the treatmentguidelinedeveloped by the European Federation of Periodon to logy (EFP) and the connection between oral health and general health.

IDS offers a great platform for professional exchange on topics that are relevant to the dental industry and dental professionals. The focal point of the upcoming event will be the significance of systematic peri-

topics that are also highlighted in the EFP guideline. Other related subjects include homeoral care, diabetes management and smoking cessation.

Periodontitishasbeenassociated withrheumatism,adversecardiovascular events, stroke and chronic respiratorydisease,amongothers.The COVID-19 pandemic has produced even stronger evidence on the link between oral health and general

health. It has been established that thorough periodontal therapy and prophylaxis can help prevent a severe case of COVID-19. For example, a mouthwash has been developed that, according to research, can reducethe SARS-CoV-2 viralload in the mouth by 71% after only a single rinse, thus helping the immune system to fight infection.

During IDS, speakers will also discuss methods to remove plaque and calculus in periodontitis and perimplantitispatients in the dental practice. These include manual tools, ultrasonic systems and airflow devices. According to the EFP clinical practice guideline, advanced periodontitis cases might require soft-tissue surgery.

The differentiated approaches demonstratehowindividualised developmentand performance of the rapy and prophylaxis for periodontitis and peri-implantitis patients have become, Mark Stephen Pace, chairman of the board of directors of the Association of the German Dental Industry—which organises IDS—said in a press release.

"Since the respective measures have an impact on much more than the mouth, going to the dentist is an essential elementina comprehensive prevention strategy. As the leading trade fair of the dental industry, IDS 2023 offers the ideal opportunity to inform oneself about current concepts and tools for successful and efficient dental care and to engage in an exchange with [other] professionals," he commented.

Ticket shop for IDS 2023 now open

■ Inafew weeks, the leading dental tradefair opensits doors again. Tickets for the International Dental Show (IDS) 2023 can be purchased now in the IDS ticket shop. In addition, the IDS app has been activated and can bedownloaded. Tickets for the trade fair can be ordered exclusively online and will be issued as personalised tickets.

Topurchaseaticket, prospective visitors need to create a Koelnmesse account via the ticket shop or use their already existing access data from previous years. This log-in data is also valid to log into the trade fair app and the digital event platform IDS connect.

The IDS entry ticket comes with a transport ticket that is valid for public transport in the Verkehrsverbund Rhein-Sieg (VRS) and the VerkehrsverbundRhein-Ruhr(VRR) transport systems without additional costs. The transport ticket is only valid within the indicated tradefair period for arrival and departure to IDS 2023.

IDS app is now available

The free IDS app is provided in German and English and is available from the App Store (IOS) or from the Google Play Store (Android). In order to use the digital ticket at the trade fair entrance, visitors should download the app, which will display the ticket in the wallet of the app after login. The

transportticket will also be displayed automatically.

Aside from these benefits, the app offers all trade fair participants additional advantages—before, during and after the event. Prior to the event, visitors can arrange discussions and meetings with other industry participants and network using the organiser in the app. Various types of content and networking options will be available in the app in the months following the event.

Otheradvantagesincludetheexhibitor search, current information and livestream of the event programme,aninteractivehallplanand theoptiontocreateapersonalfavourites list of the different programme points.
