

16th European Symposium of BDIZ EDI and Giornate Veronesi

Implantology and modern dentistry

Oral implantology and modern dentistry will be on the agenda in Valpolicella (Italy) on 16 and 17 June 2023. In cooperation with the 16th European Symposium of BDIZ EDI, the Giornate Veronesi—under the Italian sun, so to speak—will offer top-class scientific lectures, seminars and table clinics as well as a comprehensive supporting programme.

Entrance to the VILLA QUARANTA TOMMASI WINE HOTEL & SPA in Valpolicella/Italy.

Like speed dating: the format of workshops.

Beautiful surroundings to relax in the evening.

When it is cold, dark and grey in winter, it is time to think about the sun of Italy and a training event with that special Italian flair—the Giornate Veronesi (Verona Days).

Convening at the VILLA QUARANTA TOMMASI WINE HOTEL & SPA in Valpolicella (Italy), dentists and their teams will enjoy a unique opportunity to combine business with pleasure. The scientific programme will cover a broad array of subjects. In addition to oral implantology, the focal topic, general dentistry issues will be addressed throughout, and there will be an interesting programme for the dental team. The language of the Symposium will be German.

The Giornate Veronesi will offer plenty of room for discussions with presenters and an exchange of views with other professionals. In addition to the technical programme, the Friday get-together and the Saturday dinner party with wine and music will provide ample opportunity for this. Since the event will take place at the famous winery of the Tommasi family, it feels natural to offer congress participants the chance to attend a wine seminar where they will receive “expert” training in the oenological field.

The BDIZ EDI approach

“Small opportunities are often the beginning of great enterprises.” This quote from Demosthenes has been character-

istic of the history of BDIZ EDI’s European Symposia. Humble beginnings and spurious opportunities have been consolidated into a comprehensive approach that allows communities of dentists to transcend national borders. With its cooperation partner OEMUS MEDIA AG, BDIZ EDI now presents its 16th European Symposium, showing once again how oral implantologists from different countries can mutually benefit from their assembled knowledge.
