United for better dentistry

Gemeinsam mit Ihnen wollen wir die Zahnheilkunde voranbringen. Ihr Feedback sowie Gespräche mit Ihnen helfen uns, unsere Produkte und Services zu optimieren und Innovationen voranzutreiben, so dass Sie in Ihren Praxen und Laboren unter bestmöglichen Bedingungen arbeiten können. Für eine immer bessere Mundgesundheit Ihrer Patienten und Ihren Erfolg in der Praxis und im Labor – heute und morgen!
Unsere Motivation lautet: United for better dentistry.

Wir freuen uns darauf, Sie persönlich zu treffen

ConsyBox

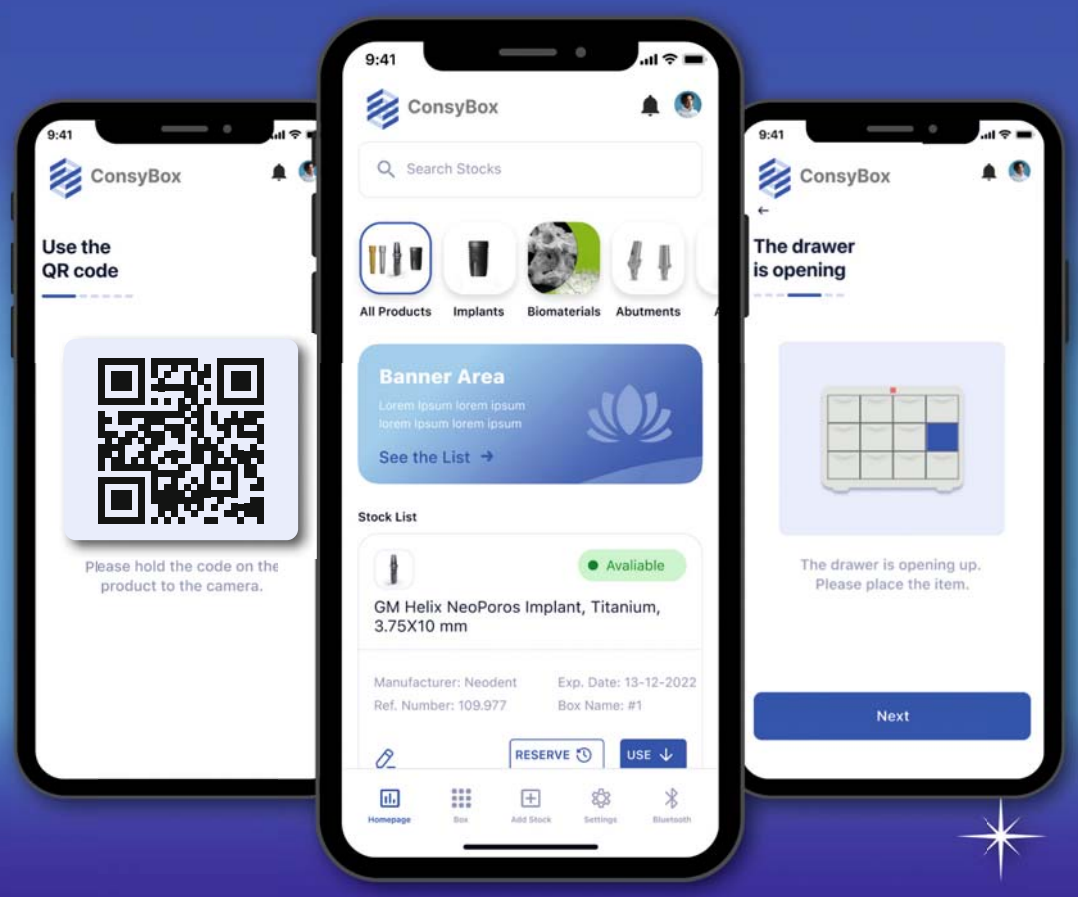
www.consybox.com

A smart box for the convenience of distributors and clinics

No paperwork, all digital!

The ConsyBox is developed for management of the implant stock in the clinics. It is a fast and precise tool for ordering goods and digital communication between distributors and clinics!

It is fully in line with the latest regulations of the European Medical Devices Regulation for storage and traceability.



Choose the product

Reserve it for treatment

You will be re-stocked automatically

Fill the stock

You are ready again for the next treatment

The ConsyBox is smart

Full automatisation of your consignment and instant control of the product taken from the box.

The Big Rethink from Oral-B

in partnership with

iADH
International Association for Disability & Oral Health

Oral-B is on a mission to make oral care more inclusive, accessible, and positive for everyone.

Did you know?

Approximately **1/3 of people (166 million)** in Europe*+ are affected by a disability in some way

32% **28%** **36%** **36%**

1/3 (34%) of those experienced gum issues in the past year

Oral-B, a leading innovator in oral health and #1 recommended brand by dentists worldwide, has commissioned a European-wide study* to better understand the hidden impact of disability on oral health.

The study reveals that in UK, France, Germany and Italy:

Almost **HALF** **of people (47%) with disabilities** have not been taught how to look after their oral health*

23%

(over a fifth) of disabled Europeans feel demotivated when it comes to maintaining their oral health*

2x

Almost **2x more** people with disabilities said they **find oral care painful** vs those without a disability*

35%

of disabled people feel anxious or frustrated when it comes to visiting the dentist*

1 in 5 (20%) of those with severe disabilities find that brushing all of their teeth physically challenging*

Our Ambition

Oral-B believes **everyone deserves an equitable oral care experience –** whether that's at **the dentist,** through **easily accessible** and **personalised tips and tricks** or with the products that are **used at home** to maintain oral health.

For more information

*About the Research
The Oral Health & Disability European Study – UK, France, Germany and Italy, was conducted by Reputation Leaders.
The studies were conducted between 2021–2022 in Germany (n=1034), France (n=1009), UK (n=2029) and Italy (n=1002).
In each country the online survey sample was recruited and reported to be representative of the total adult population by age, gender and region.
The margin of error of a sample of 5000 adults is +/- 1.4% at a 95% confidence level for the 4 leading economies.
At a country level, the margin of error of the sample relative to the total adult population was UK n=2000 (+/- 2.2%), Germany, France and Italy, n=1000 (+/- 3.1%)
+Assumes total EU and UK population, 2022
