# ConsyBox

www.consybox.com

A smart box for the convenience of distributors and clinics

## No paperwork, all digital!

The ConsyBox is developed for management of the implant stock in the clinics. It is a fast and precise tool for ordering goods and digital communication between distributors and clinics!

It is fully in line with the latest regulations of the European Medical Devices Regulation for storage and traceability.

Choose the product

Reserve it for treatment

You will be re-stocked automatically

Fill the stock

You are ready again for the next treatment

## The ConsyBox is smart

Full automatization of your consignment and instant control of the product taken from the box.

# NAVIDENT

Precise. Efficient. Versatile

Dynamic Navigation for Dental Surgery

Expand your surgical expertise

Less trauma for your patients

Save precious time

## Guided implantology

Conduct high-precision implant treatments quickly and confidently. Reliably detect important anatomical structures.

## Guided endodontics

Locate root canals and other fine anatomical structures.

## Guided bone surgery

High-precision navigation of your piezotome enables accurate assessment and predictable outcomes.

AD

Oral-B is on a mission to make oral care more inclusive, accessible, and positive for everyone.

Did you know?

Approximately **1/3 of people (166 million)** in Europe\*\* are affected by a disability in some way

32%

28%

36%

36%

**1/3 (34%)** of those experienced gum issues in the past year

Oral-B, a leading innovator in oral health and #1 recommended brand by dentists worldwide, has commissioned a European-wide study\* to better understand the hidden impact of disability on oral health.

The study reveals that in UK, France, Germany and Italy:

Almost **HALF of people (47%) with disabilities** have not been taught how to look after their oral health\*

23%

(over a fifth) of disabled Europeans feel demotivated when it comes to maintaining their oral health\*

2x

Almost **2x** more people with disabilities said they **find oral care painful** vs those without a disability\*

35%

of disabled people feel **anxious or frustrated** when it comes to visiting the dentist\*

**1 in 5 (20%)** of those with severe disabilities find that brushing all of their teeth physically challenging\*

Our Ambition

Oral-B believes **everyone deserves an equitable oral care experience** – whether that's at **the dentist**, through **easily accessible** and **personalised tips and tricks** or with the products that are **used at home** to maintain oral health.

For more information

\*About the Research

The Oral Health & Disability European Study – UK, France, Germany and Italy, was conducted by Reputation Leaders. The studies were conducted between 2021–2022 in Germany (n=1034), France (n=1009), UK (n=2029) and Italy (n=1002).

In each country the online survey sample was recruited and reported to be representative of the total adult population by age, gender and region. The margin of error of a sample of 5000 adults is +/- 1.4% at a 95% confidence level for the 4 leading economies.

At a country level, the margin of error of the sample relative to the total adult population was UK n=2000 (+/- 2.2%), Germany, France and Italy, n=1000 (+/- 3.1%)

+Assumes total EU and UK population, 2022
