and Treasurer of DGZI

Implantology in the team

Dear colleagues and friends,

At the very beginning of oral implantology at the end of the sixties and beginning of the seventies of the past century, it was already clear that implantology is a team effort, and this is just as relevant today.

The challenges of the early days are certainly very different from those of the present time, and the associated tasks for the team are just as varied. Whereas in the past the focus was on insecurities regarding a successful implantation, today completely different requirements such as technical conditions, patient expectations or the digital workflow are coming to the fore.

Therefore, I am pleased to invite the international implantological community on behalf of the DGZI to this year's 52nd Annual Congress in Hamburg on 6 and 7 October.

The event will take place this time under the motto "Implantology in the team", the focus will be on the dentist, his practice team, and the dental technician. The congress offers a unique international platform for the exchange of expertise, experience, and best practices. Traditionally, at the beginning of the congress we will look into the future and offer our young DGZI friends a podium. Regarding the scientific programme, we have also succeeded not only in attracting renowned speakers, but also in setting up a programme that covers the entire range of facets of dental implantology. Naturally, the popular "Table Clinics"

will not be missing either, a format with a unique possibility of directly imparting expert information in small groups and direct implementation of what has been learnt.

Especially in recent years, the annual congress of the DGZI has been established as an important, international scientific and practice-relevant event.

In addition to the scientific programme, the host city of Hamburg offers a rich culture, a picturesque landscape and excellent gastronomy. Take the opportunity to network and explore this impressive city!

We are looking forward to meeting you again and to a vivid collegial interchange.

Yours,

A handwritten signature in black ink, appearing to read "Dr Rolf Vollmer".
