

32nd Expert Symposium on Regenerative Procedures in Dentistry

Concepts of prosthetic care

For the 32nd time, the Expert Symposium under the direction of Prof. Joachim Zöller (Cologne) will take place on Fuerteventura this year, bringing together academic research and clinical practice. From 27 October to 3 November 2023, there will be many interesting lectures, leisure and sports at the Robinson Club Esquinzo Playa in Fuerteventura.

The 32nd Expert Symposium will focus on different approaches to prosthetic care using implant-supported restorations, from single crowns, implant-supported bridges and the all-on-4/all-on-6 concept to coverdentures and much more. These concepts will be explored and critically evaluated by experienced speakers who offer different solutions for different clinical situations and patient needs. The presentations are designed to help dentists recommend the best treatment options based on the patient's individual situations and plan their prosthetic restorations accordingly.

For more information and to register, please contact:
info@reisebuero-gup.de

The White Night is a tradition on Fuerteventura.

Lectures take place in the pyramid.

All speakers are based in Germany unless otherwise stated.

32nd Expert Symposium: “Concepts of Prosthetic Care”

27 October to 3 November 2023, Robinson Club Esquinzo Playa, Fuerteventura

Presentations	
Budgeting of Statutory Health Insurance for dental care and standstill of the German Standard Schedule of Fees for Dentists (GOZ) Christian Berger, Kempten	Immediate implant placement or ridge preservation—what does the evidence say? Dr Stefan Reinhardt, Münster
The digital workflow as a prerequisite for atraumatic implantation and augmentation Prof. Fred Bergman, Viernheim	What use is AI for us? Henriette Reker, Lord Mayor, Cologne
What does good dentistry look like in 2023? Prof. Florian Beuer MME, Berlin	Modern leadership: effective leadership in times of personnel change Bianca Rieken, Winsen an der Luhe
Coordination of prosthetic and surgical treatment sequences in complex care Dr Lars Börner, Berlin	Endocarditis prophylaxis: developments and current recommendations Dr Vanessa Wennekes-Neagu, Emmendingen
Dental aesthetics checklist Dr Wolfram Bücking, Wangen	Oral surgery in patients on anticoagulant therapy: what needs to be considered? Dr Valentin Wennekes-Neagu, Emmendingen
Are there advantages to using an elastic base material such as Trinia™ for fixed partial dentures? Prof. Rolf Ewers, Vienna, Austria	The semilunar technique: bone-block harvesting 2.0 for the implantology practice. (Hammering was yesterday!) Dr Frank Zastrow, Wiesloch
AI and the experts—fatal attraction Dr Ulrich Fürst, Attnang-Puchheim	The jaw: destructive inflammatory processes and their treatment Dr Matthias Zirk, Cologne
All-ceramic implant prosthetics on TI-Base abutments: results and experience of a 5-year retrospective cohort study Dr Peter Gehrke and Carsten Fischer, Ludwigshafen	NEW: Refresher course in radiation protection (technical qualification and proof of knowledge) Dr Friedhelm Weber and Dr Jochen Völkening, Hamm
Aesthetics and function: borderline areas in planning and implementation Dr Martin Gollner, Bayreuth	
Imperial-in-a-Smile Box—efficient chairside immediate restoration using a fully digital workflow Dr Uwe Jaenisch, Hohen Neuendorf	
Post-Vac, Post-COVID, Long COVID: Surgical risks in implant and oral surgery—what do we need to consider? Dr Sigurd Hafner, Munich	
Stem cells and regeneration: versatile applications from implantology to anti-aging Prof. Jürgen Hescheler, Cologne	
Dentistry from A to Z: optimisation of implant/prosthetic cases with Alphalign Dr Jutta Hüsch and Dr Uwe Peterseim, Kassel	
COVID-19: a pandemic like many others? Prof. Axel Karenberg, Cologne	
Implantological concept in the aesthetic zone Dr Jan Klenke, Hamburg	
Biological permeability of the implant design—a key factor in the prevention of peri-implantitis Dr Stefan König, Bochum	
Will white implants replace grey implants? Dr Adina Landschoof, Geretsried	
Digital prosthetic treatment options and optimised cementation of tooth-coloured CAD/CAM materials Prof. Anja Liebermann, Cologne	
Efficient patient care and flexible working conditions with dentinostic—the app for precise remote diagnosis Dr Tina Mandel, Cologne	
Immediate implant placement—is there another way? Dr Alexander Müller-Busch, Ingolstadt	
One year without drilling—the beginning of a new phase in life Dr Christoph Niesel, Karlsruhe	
How does the prosthetic design determine the long-term bone level? Prof. Jörg Neugebauer, Landsberg am Lech	
Workshops	
	3D planning: Atraumatic horizontal augmentation and intra-oral 3D scanning. Practical exercises on animal bones and using the intra-oral 3D scanner Prof. Fred Bergman, Viernheim
	Treatment planning for complex cases Prof. Florian Beuer MME, Berlin
	Imperial-in-a-Smile Box: data acquisition/PC-based planning/hands-on exercises—fully guided implant drilling, including insertion and adhesive cementation of the prefabricated temporary restoration Dr Uwe Jaenisch, Hohen Neuendorf
	Navigated implantation using AI—live demonstration of the rapid conversion from intra-oral scan to certified biocompatible surgical guide Dr Sigurd Hafner, Munich
	Introduction to Alphalign Dr Uwe Hüsch and Dr Jutta Hüsch, Kassel
	The i-LINQ® implant: revolutionary design with high biological approach Dr Stefan König, Bochum
	White implants—beautiful and reliable! Dr Adina Landschoof, Geretsried
	Mastering dentinostic: an interactive workshop on using the remote-diagnosis app for efficient patient care Dr Tina Mandel, Cologne
	High primary stability despite an insufficient bone supply—aspiration or reality? Dr Alexander Müller-Busch, Ingolstadt
	Dentistry makes a difference—a humanitarian mission in Kenya Dr Christoph Niesel, Karlsruhe
	Immediate implant placement, immediate restoration and immediate loading—my concept Dr Stefan Reinhardt, Münster
	Communication that moves: Successfully conducting staff appraisals Bianca Rieken, Winsen an der Luhe
