

32nd Expert Symposium on Regenerative Procedures in Dentistry

Concepts of prosthetic care

For the 32nd time, the Expert Symposium under the direction of Prof. Joachim Zöller (Cologne) will take place on Fuerteventura this year, bringing together academic research and clinical practice. From 27 October to 3 November 2023, there will be many interesting lectures, leisure and sports at the Robinson Club Esquinzo Playa in Fuerteventura.

The 32nd Expert Symposium will focus on different approaches to prosthetic care using implant-supported restorations, from single crowns, implant-supported bridges and the all-on-4/all-on-6 concept to coverdentures and much more. These concepts will be explored and critically evaluated by experienced speakers who offer different solutions for different clinical situations and patient needs. The presentations are designed to help dentists recommend the best treatment options based on the patient's individual situations and plan their prosthetic restorations accordingly.
