

24<sup>th</sup> Curriculum Implantology is now completed

# Congratulations to the curriculum graduates!

The 24<sup>th</sup> Curriculum Implantology, jointly arranged by BDIZ EDI and the University of Cologne, is now completed, following the conclusion of the final exams. The participants had completed eight modules on oral implantology over a period of one year.

The successful graduates of the 24<sup>th</sup> Curriculum Implantology at the University of Cologne with their teacher and Prof. Dr Hans-Joachim Nickenig.

The courses were held in hybrid form—partly online and partly in small groups that were physically separated.

The 24<sup>th</sup> Curriculum Implantology has been the most recent chapter of a long success story. A total of 700 graduates

have been trained in oral implantology since 2004, the year of the first curriculum.

“In addition to theoretical presentations, practical demonstrations and personal experience as obtained during prac-

tical exercises or the treatment of actual patients are important,” as Prof. Joachim E. Zöllner had said in 2004. Zöllner, today Vice President of BDIZ EDI, was and continues to be responsible for implementing the curriculum and its objectives; over the years, he has proven again and again that it is possible to do so successfully.

### Eight modules—one curriculum

Today the curriculum consists of eight modules in two-day courses, which include observation and are supervised by experienced instructors. The overall objective is practical relevance. To achieve this, the teaching modules and its contents are subject to constant updating.

After successful observation and supervision, participants can take the exam for the formal professional focus on oral implantology if they can show proof of the required practical experience.

### No closed-shop policy

All modules can be booked individually. Modules completed with other providers can be approved for credit with proper documentation. Prof. Hans-Joachim Nickenig, who had modernised the content of the curriculum when he took over several years ago, is the point of contact for all participants.

### Our instructors

The instructors are experienced implantologists and have presented the training units with videos and live patient demonstrations for many years.

Each course includes practical sessions, most of which use realistic training models or human specimens rather than the usual plastic jaw replicas. “The training units were designed to highlight the interrelationships between the prosthetic and surgical aspects, even where the major topics concentrate on one or the other subject area,” said Zöllner. “A limited number of participants—an aspect that is important to both BDIZ EDI and the university team—ensures a lively exchange of ideas between instructors and participants.”

#### Graduates of the 24<sup>th</sup> curriculum:

|                                      |                            |
|--------------------------------------|----------------------------|
| Baschar Al-Trini                     | Georgios Maleas            |
| Clara Dorothea Bartsch               | Ulkar Mammadova            |
| Dr Natali Berdik-Rakuljic            | Kyra Ilona Meyer           |
| Dr Manuela Boor                      | Dr Sebastian Michaelis     |
| Dr Sara Boroumand                    | Christine Müller           |
| Vasiliki Chaidogianni                | Dr Henning Oeken           |
| Dr Maximilian Georg Decker           | Ruth Ohanes                |
| Isabelle Johanna Susanne Diedenhofen | Dr Nora Owin               |
| Dr Anna Dreßler                      | Martin Pecher              |
| Dr Mimouna El Bajjati                | Dr Daniel Nawid Pooyeh     |
| Dr Gregor Geers                      | Maximilian Harry Popp      |
| Sophia Gies                          | Sebastian Rauschenbach     |
| Dimitrije Glamocak                   | Dr Dr Vadim Rempel         |
| Victoria Grewe                       | Jan Reuver                 |
| Dr Michael Härer                     | Dr Dr Maximilian Riekert   |
| Vanja Jovanovic                      | Dr Maren Susan Roggenthien |
| Rawan Kalach                         | Claudia Schlobohm          |
| Dr Kinan Kandil                      | Valentin E. Schmiedl       |
| Mohamad Kashkoul                     | Dr Lisa Steier             |
| Enolia Khogaz                        | Dr Katharina Schnabl       |
| Erwin Klassen                        | Luisa Schoebel             |
| Dr (RUS) Igor Komissarchik           | Fabienne Schumacher        |
| Conrad Kreilein                      | Dr Nadin Tahan             |
| Dr Nikolas Lanzerath                 | Lenard Sebastian Wehr      |
| Ina Schmidt                          | Iwona Wlodarczyk, M.Sc.    |
| Marlies Makrellis                    | Daniel Wolter              |

## 25<sup>th</sup> Curriculum Implantology starting soon

The 25<sup>th</sup> Curriculum Implantology will kick off in October. Thanks to the strong demand, like the year before, BDIZ EDI and the University of Cologne have set up a second group. The Cologne curriculum is already fully booked. The Curriculum South in Munich is planned for 2024 and is expected to start in autumn.

For more information, visit the BDIZ EDI website at [www.bdizedi.org/en/curriculum-implantology](http://www.bdizedi.org/en/curriculum-implantology).
