

Patient-customised concepts: “**Implantology 4.0**” in Düsseldorf this November

On 8 and 9 November 2024, the 53rd International Annual Congress of the German Association of Dental Implantology (DGZI) will be held in Düsseldorf, centered on the theme “Implantology 4.0—on the way to patient-specific concepts.” This congress promises to be an enlightening event, guiding the future of dental implantology, fostering insightful discussions, and unveiling innovative approaches through the dynamic interaction between participants, speakers, and the industry.

For decades, dental practitioners have relied on standardised, evidence-based implantological treatments applicable to all patients. However, recent studies indicate a pressing need to reassess this one-size-fits-all methodology. What ensures success in one patient might not yield the same result in another. Hence, the focus is shifting towards patient-individualised concepts.

At the forefront of this transformation, the congress will showcase the latest scientific and practical findings. Renowned speakers will engage with participants to explore the full spectrum of dental implantology, fostering a collaborative environment where future advancements can take root. Traditionally, the congress kicks off with a forward-looking perspective, featuring presentations from the emerging generation of DGZI professionals who will share their current research and projects in a dedicated forum.

This year’s DGZI Annual Congress will also include two in-depth tutorials: one on digital impressions in implantology and the other on immediate implantation and immediate loading. These sessions are designed to provide practical insights and hands-on experience. Additionally, the ever-popular table clinics return, offering participants the chance to discuss specialised topics with distinguished experts, thereby expanding their knowledge beyond their usual practice.

Complementing the scientific sessions, a separate congress for implantological assistants will take place, ensuring that the entire practice team benefits from comprehensive training and education.

Set against the backdrop of Düsseldorf, a city renowned for its vibrant culture and dynamic atmosphere, the congress offers more than just professional development. It promises an enriching and holistic experience that combines cutting-edge knowledge with the charm of one of Germany’s most fascinating cities. The DGZI Annual Congress is a must-attend event for anyone involved in dental implantology, offering unparalleled opportunities for learning, networking, and professional growth.
