With readers in numerous countries, *implants – international magazine of oral implantology* is today one of the most widely distributed dental publications worldwide. Published in English language in cooperation with the German Society of Dental Implantology (DGZI), Europe's oldest professional implantology association, the magazine is dedicated to advancing international knowledge exchange in dental implantology. Committed to providing a comprehensive overview of the latest developments in the field, *implants* engages its readership with four issues per year featuring a broad range of clinical case reports, updates on relevant new product launches from industry, and news from science and research. Special emphasis is also placed on international congress coverage and DGZI's global activities. Together with its own and associated members, DGZI is part of a network of 11,000 implantology specialists. The magazine is distributed directly to members and subscribers and is also available as a complimentary copy at many international trade fairs and congresses.
