BEGO Semados® RSX^{Pro} CC

CONFIDENCE BUILT INTO EVERY CONNECTION

RSX^{Pro} Conical Connection – the new implant from BEGO

135 years of German dental innovation – now in every detail of your implant system. The RSX CC combines trusted BEGO quality with modern simplicity, supporting outstanding results in both surgery and prosthetics.

- Strong, conical connection for long-term reliability
- Just 3 internal interfaces – streamlined, intuitive, efficient
- Concave emergence profile for natural soft tissue contours
- 5 gingival heights – more freedom, more precision
- Color-coded components – clarity at every step
