

LED's be independent

120 Years W&H.
Help us support SOS Children's Villages!

Regardless of which unit or drive you are using, new Alegra LED+ turbines and contra-angles light your way with their very own light supply. The secret? A built-in generator. The plus? Ultimate LED technology for daylight quality light, exceptional reproduction of natural colours and clear, unparalleled colour contrast. The downside? No other LED solution comes close by comparison. The Alegra LED+ series: now available from your specialist retailer.
