Dental Education Laboratories

Dr. Buchanan's Premier Resource for Endodontic Training

Featuring the best products in dentistry and the most comprehensive training on their use in endodontics

Hands-on Courses

in our state of the art laboratory designed for endodontics

Limited to 14 participants, our flagship hands-on program allows you to work closely with Dr. Buchanan to refine your skills, maximize your clinical results and improve your profitability. Self-paced exercises and personalized coaching enable participants to train-up from fundamental concepts to complex case strategies, regardless of their specific experiences and skill levels. All hands-on courses include a live patient demonstration performed by Dr. Buchanan.

Courses offered monthly. Call or visit endobuchanan.com for upcoming dates and details, and to view a photo gallery of the facility.

Internet-Based Learning

at www.endobuchanan.com

Our interactive internet site is a rich resource for continuing scholarship and practical information, offering practicing clinicians a dynamic educational resource, unlike any other in endo. Find out about new instrumentation and techniques used by Dr. Buchanan, or explore the site to find:

- Free articles, charts and technique usage materials
- Free CE Online courses
- 3D atlas of endodontic anatomy
- Answers to clinical questions
- Video downloads
- DVD titles
