After endodontic laser treatment there is no smear layer around the opening of the lateral canal.

The universe at your fingertips.

LightWalker®

Introducing the highest technology dental laser system

Supreme clinical results in:

- TwinLight™ Perio Treatments (TPT)
- TwinLight™ Endo Treatments (TET)
- Effective oral implant surgery
- Gentle TouchWhite™ bleaching
- Patient-friendly conservative dentistry

Unmatched simplicity of use:

- Pre-sets for over 40 applications
- Intuitive user navigation
- Balanced and weightless OPTOflex arm
- Nd:YAG handpiece detection system
- Er:YAG scanner ready

Journey into a new dental experience with speed, precision and great results.
