

Surgic Pro⁺ × VarioSurg3

Dual Power and Performance

NSK's LINK TECHNOLOGY allows you to conveniently link two supremely powerful and versatile surgical units for convenience and space saving while maintaining independence when needed.

Surgic Pro is NSK's premium surgical unit for implant placement and general surgical procedures with added peace of mind due to AHC (Advanced Handpiece Calibration) system.

VarioSurg3 is NSK's most powerful ultrasonic surgical unit with 50% power increase compared to its pre-decessor.

Surgic Pro+

- Powerful torque (up to 80Ncm)
- Wide speed range (200 to 40,000min-1)
- High torque accuracy
- Light and small micromotor with LED illumination
- Excellent durability
- Autoclavable and thermo-disinfectable micro motor

VarioSurg3

- Major power boost – Up 50%
- The selectable “Burst” function generates a hammer effect
- Adjustable light intensity, water volume, and power mode.
- Slim and ergonomic handpiece with LED illumination
- Power feedback & auto tuning function
- A wide and constantly growing tip range
- Autoclavable and thermo-disinfectable handpiece
