

Produits Dentaires presents PD MTA White

_PD (Produits Dentaires) Switzerland, developer and manufacturer of MAP System for the precise placement of repair material in the root canal presented at the IDS 2013 for the first time his PD MTA White.

This new endodontic filling material was specially developed to be placed with MAP System but it could be placed with any other technique as well. The PD MTA White offers the following advantages:

- _Optimized particle size;
- _Avoids bacterial migration;
- _Excellent marginal sealing capacity;
- _Stimulates the formation of a dentine layer (pulp capping).

Furthermore the very hygienic packaging in two sachets with 280mg each shows an additional plus for a safe and successful treatment.
