

Proven stability, high esthetics

« NobelReplace Conical Connection merges the well-proven implant body of NobelReplace Tapered with a tight internal conical connection. It is a versatile, easy-to-use implant which performs well in soft and hard bone. »

Prof. Alessandro Pozzi
Rome, Italy

NEW Option with
0.75 mm
machined collar

NobelReplace Conical Connection combines the original tapered implant body with a sealed conical connection, offering you and your patients an esthetic solution for all indications. The implant body mimics the shape of a natural tooth root, designed for high initial stability with all types of loading protocols including Immediate Function. Developed for restorations in the esthetic region,

NobelReplace Conical Connection offers a strong sealed connection with built-in platform shifting, designed to maximize soft tissue volume for natural looking esthetics. After 45 years as a dental innovator we have the experience to bring you future-proof and reliable technologies for effective patient treatment. **Their smile, your skill, our solutions.**
