

### Software

Allows doctors and clinicians to become members of an online information hub

### Surgical Kits

Enhances accuracy and safety for a smoother guided procedure

### Template

Gives an open field-of-view during surgery

## WHEN VIRTUAL BECOMES REALITY MAKE IT SIMPLE

MIS is proud to offer the MGUIDE MORE, our new virtual implant planning and guided implantology kit, with no need for guidance keys, for a simple, accurate and safe guided procedure. The MGUIDE MORE system features user friendly software to ensure accurate planning and an open wire-frame template allowing a greater field-of-view and irrigation for easier implant placement. Learn more about the MGUIDE MORE and MIS at: [www.mis-implants.com/mguide](http://www.mis-implants.com/mguide)
