

creos™
xenoprotect

Experience the difference.

The creos xenoprotect membrane offers outstanding handling properties and an extended barrier function.

Save valuable time and reduce the risk of membrane failure thanks to the outstanding handling properties and high tear resistance of this biodegradable collagen membrane.

Approach your sales representative for a hands-on demonstration of the membrane. To feel it is to believe it. We're confident you'll notice the difference straight away.

- Extended barrier function
- Outstanding handling
- Fast and predictable tissue healing
- Easy fixation and suturing
