# Simplicity

without compromise

The design philosophy of the ASTRA TECH Implant System EV is based on the natural dentition utilizing a site-specific, crown-down approach supported by an intuitive surgical protocol and a simple prosthetic workflow.

- **Unique interface with one-position-only placement for ATLANTIS patient-specific abutments**
- **Self-guiding impression components**
- **Versatile implant designs**
- **Flexible drilling protocol**

The foundation of this evolutionary step remains the unique ASTRA TECH Implant System BioManagement Complex.
