**ASTRA TECH  
IMPLANT SYSTEM**

# Simplicity without compromise

The design philosophy of the ASTRA TECH Implant System EV is based on the natural dentition utilizing a site-specific, crown-down approach supported by an intuitive surgical protocol and a simple prosthetic workflow.

- Unique interface with one-position-only placement for ATLANTIS patient-specific abutments
- Self-guiding impression components
- Versatile implant designs
- Flexible drilling protocol

The foundation of this evolutionary step remains the unique ASTRA TECH Implant System BioManagement Complex.
