

# Cement belongs to yesterday

## A complete posterior solution

To keep pushing forward, we're bringing innovation to the back. Connect with your entire treatment team and achieve shorter time to teeth with Nobel Biocare's complete posterior solution. It offers new ways to overcome the challenges of working in the posterior region while reducing complexity and risks.

Choose from new wide implants designed for Immediate Function. Add a monolithic implant crown with an angulated screw channel for a solution that's stronger than ever and 100% cement free. Start treating more patients better.
