### Copyright Regulations

**implants international magazine of oral implantology** is published by OEMUS MEDIA AG and will appear in 2016 with one issue every quarter. The magazine and all articles and illustrations therein are protected by copyright. Any utilization without the prior consent of editor and publisher is inadmissible and liable to prosecution. This applies in particular to duplicate copies, translations, microfilms, and storage and processing in electronic systems. Reproductions, including extracts, may only be made with the permission of the publisher. Given no statement to the contrary, any submissions to the editorial department are understood to be in agreement with a full or partial publishing of said submission. The editorial department reserves the right to check all submitted articles for formal errors and factual authority, and to make amendments if necessary. No responsibility shall be taken for unsolicited books and manuscripts. Articles bearing symbols other than that of the editorial department, or which are distinguished by the name of the author, represent the opinion of the afore-mentioned, and do not have to comply with the views of OEMUS MEDIA AG. Responsibility for such articles shall be borne by the author. Responsibility for advertisements and other specially labeled items shall not be borne by the editorial department. Likewise, no responsibility shall be assumed for information published about associations, companies and commercial markets. All cases of consequential liability arising from inaccurate or faulty representation are excluded. General terms and conditions apply, legal venue is Leipzig, Germany.

"my job is to design great smiles."

NucleOSS produces  
smart designs, brave smiles

# Simply straightforward

## NobelParallel™ Conical Connection

The NobelParallel Conical Connection is straightforward in design and application. It offers extraordinary flexibility that you'll appreciate whether you're an experienced clinician or new to implantology. The well-documented implant body provides high primary stability and allows for universal use in all bone qualities and a wide range of indications. Start treating more patients better.
