Copyright Regulations

implants international magazine of oral implantology is published by OEMUS MEDIA AG and will appear in 2017 with one issue every quarter. The magazine and all articles and illustrations therein are protected by copyright. Any utilization without the prior consent of editor and publisher is inadmissible and liable to prosecution. This applies in particular to duplicate copies, translations, microfilms, and storage and processing in electronic systems. Reproductions, including extracts, may only be made with the permission of the publisher. Given no statement to the contrary, any submissions to the editorial department are understood to be in agreement with a full or partial publishing of said submission. The editorial department reserves the right to check all submitted articles for formal errors and factual authority, and to make amendments if necessary. No responsibility shall be taken for unsolicited books and manuscripts. Articles bearing symbols other than that of the editorial department, or which are distinguished by the name of the author, represent the opinion of the afore-mentioned, and do not have to comply with the views of OEMUS MEDIA AG. Responsibility for such articles shall be borne by the author. Responsibility for advertisements and other specially labeled items shall not be borne by the editorial department. Likewise, no responsibility shall be assumed for information published about associations, companies and commercial markets. All cases of consequential liability arising from inaccurate or faulty representation are excluded. General terms and conditions apply, legal venue is Leipzig, Germany.

Straumann® BLT Ø 2.9 mm – the SmallOne
Another legend is born:
Small, strong and enduring.

LESS INVASIVE*

A perfect combination of shape, strength and healing power.

NATURAL LOOKING ESTHETICS

Novel prosthetic design that closely matches the anatomy of teeth.

FULL STRENGTH

A strong and reliable treatment option thanks to Roxolid®.

Contact your local Straumann® representative today to find out more about the SmallOne. Or visit smallone.straumann.com.

*if GBR can be avoided

A shield never to be broken

“With On1 you get the best of both worlds – a bone-level implant with built-in platform shifting and restoring at tissue level without disturbing the mucosal seal.”

Prof. Bernard Touati, France

EAO 2017

Visit us at booth D3 and
hospitality suite H2.

On1™ concept

On1 is the first solution designed to preserve the natural shield created by the soft tissue attachment while offering full surgical and restorative flexibility. The unique On1 Base moves the restorative platform to tissue level, radically simplifying all restorative procedures.
