

CERAMIC EXCELLENCE

CERALOG[®]
SYSTEM

INVISIBLE

Perfect red-white esthetics, supported by tooth-like coloring and the properties of zirconium oxide – that is CERAMIC EXCELLENCE.

- Dual surface texture: Osseointegration and soft tissue attachment
- Two-piece design, screw-retained reversible prosthetic solutions
- Ceramic-specific design with Hexalobe connection
- Innovative PEKK abutment with stress shield reduction
- Ivory colored for highly esthetic restorations
- 100 % quality control
