

TRULY CONICAL PRECISION

CONOLOG[®]
SYSTEM

BE STRONGER!

Clear positioning

For high accuracy of abutment alignment, time-saving due to quick and easy indexing

Flexible solutions

Full range of prosthetic components serving all prosthetic indications and treatment concepts

Precise conical connection

Superior positional stability compared to other conical connections

Integrated platform switching

For excellent crestal bone level maintenance

3.3 mm diameter implants

For small interdental spaces

Digital workflow

From planning to guided surgery and prosthetic restoration

7 mm length implants

For limited bone availability

Promote[®] surface

Ideal structure for cell attachment. Predictable long-term results.

The conical connection of the CONOLOG[®] implant offers greater precision and stability of the implant-abutment connection resulting in user friendliness and impressive long-term success. BE STRONGER!
