Copyright Regulations

implants international magazine of oral implantology is published by OEMUS MEDIA AG and will appear with one issue every quarter in 2019. The magazine and all articles and illustrations therein are protected by copyright. Any utilisation without the prior consent of editor and publisher is inadmissible and liable to prosecution. This applies in particular to duplicate copies, translations, microfilms, and storage and processing in electronic systems. Reproductions, including extracts, may only be made with the permission of the publisher. Given no statement to the contrary, any submissions to the editorial department are understood to be in agreement with a full or partial publishing of said submission. The editorial department reserves the right to check all submitted articles for formal errors and factual authority, and to make amendments if necessary. No responsibility shall be taken for unsolicited books and manuscripts. Articles bearing symbols other than that of the editorial department, or which are distinguished by the name of the author, represent the opinion of the aforementioned, and do not have to comply with the views of OEMUS MEDIA AG. Responsibility for such articles shall be borne by the author. Responsibility for advertisements and other specially labeled items shall not be borne by the editorial department. Likewise, no responsibility shall be assumed for information published about associations, companies and commercial markets. All cases of consequential liability arising from inaccurate or faulty representation are excluded. General terms and conditions apply, legal venue is Leipzig, Germany.
EXCELLENCE IN IMMEDIACY

Straumann® BLX
Confidence beyond Immediacy.

DYNAMIC BONE MANAGEMENT™
Makes immediate protocols achievable and predictable in all bone types.

ESTHETIC EASE CONCEPT
One connection and under-contoured prosthetics to deliver esthetics with ease.

REAL CONFIDENCE
Straumann solutions you can depend on and that are predictable in all clinical situations.

BLX unifies groundbreaking functional design with our high-performance Roxolid® material and the clinically proven SLActive® surface to provide you with confidence for all clinical situations. Innovations like the VeloDrill™ system, Dynamic Bone Management™ and Esthetic Ease Concept are designed to significantly improve surgical and restorative workflows.

Surface chemistry cells can't resist.

Introducing Xeal and TiUltra – two new breakthrough surfaces derived from our decades of applied anodization expertise. From abutment to implant apex, we have reimagined surface chemistry and topography to optimize tissue integration at every level. We’ve now entered the Mucointegration™ era.

The new Xeal surface is now available for the On1™ Base and the Multi-unit Abutment. TiUltra is available on our best selling NobelActive® and NobelParallel™ CC implants.
