choose perfection

The universe at your fingertips.

LightWalker

The highest technology dental laser system

Supreme clinical results:

- TwinLight® Perio Treatments
- TwinLight® Endo Treatments
- No-sutures soft-tissue surgery
- Patient-friendly conservative dentistry
- Pre-sets for over 40 applications

Unmatched simplicity of use:

- Balanced and weightless OPTOflex® arm
- Nd:YAG handpiece detection system
- Quantum Square Pulse technology for fast minimally invasive treatments
- X-Runner™ - the first digitally controlled Er:YAG dental laser handpiece

Visit Fotona's booth (Hall: 10, Plain: 2, Aisle: M, No: 050) to find out more about our latest high-performance, ASP-powered LightWalker laser systems and minimally invasive dental solutions.
