WFLD President
Editor-in-Chief

Dear **Laser** users,

_This editorial is written under the impression of the WFLD Congress, which is just now taking place in Dubai together with the biggest dental exhibition and dental conference in the Middle East, the AEEDC® 2010.

The WFLD Congress is an integrating factor for Lasers in the different fields of dental treatment and the visitors from more than 110 countries are able to participate not only in Laser presentations but also in a number of other presentations concerned with conventional treatments.

The very positive effect out of this integration is that colleagues who have been very reserved towards this technology perceive lasers and laser treatments more objectively.

I hope that this edition is again stimulating you to dig deeper in the advantages of laser-supported treatments.
