Advances and Innovations in Oral Implantology at the 27th ICOI World Congress in Hamburg

Leading international specialists will speak about implant dentistry at this DGOI co-hosted event.

Deutscher Gesellschaft für
DGOI
Oral Implantologie

The International Congress of Oral Implantologists (ICOI) will hold its 2010 World Congress in Europe this year co-hosted by ICOI's German Member Society DGOI. The Scientific Chairman of this Congress are ICOI's incoming President, Dr Hsin-Lay Wang, and DGOI President, Dr Georg Bayer. The venue for this World Congress is the Hamburg Convention Center in this lovely German city.

"Digital Planning, Trouble Shooting and Tissue Engineering-Innovations in Oral Implantology" is the theme of this three-day meeting, which starts Thursday, 26 August with a number of pre-congress workshops. The General Session will begin at 13:30 on Thursday afternoon and will run through Saturday, 28 August.

An extensive faculty includes speakers such as Stephen Beer (Germany), Georg Bayer (Germany), Erika Benavides (USA), Fred Bergmann (Germany), Hugo De Bruyn

(Belgium), Mariusz Duś (Poland), Pablo Gallardo-Moreno (Spain), Scott D. Ganz (USA), Ricardo Gapski (Brazil), William Giannobile (USA), John Gillis (Australia), Henry Greenwell (USA), Gintaras Juodzbalys (Lithuania), Wikusius Lang (Hong Kong), Mauro Marincola (Italy), Carl Mitch (USA), Georg H. Rothwig (Germany), Zeev Omlansky (Israel), Ady Palm

(Germany), Michael Reddy (USA), Mario H. Rodriguez (Mexico), Henry Salama (USA), Maurice Salama (USA), Markus Schöe (Germany), Massimo Simon (Italy), Dong-Seok Sohn (Korea), Marius Steigmann (Germany), Tolga F. Tözüm (Turkey), Wilfried Wagner (Germany), Hsin-Lay Wang (USA), Michael Weiss (Germany), Shih-Cheng Wen (Taiwan),

Natalie Y. Wong (Canada), Murat Yildirim (Germany), and Joachim Zöller (Germany).

There will be simultaneous translation of the General Session in German and English.

Objectives & Mission Statement

Upon completion of this congress attendees will be able to Understand

digital treatment planning for proper implant placement; Review implant complications and their management; Develop techniques for tissue engineering for predictable bone regeneration; Review new innovations in implant therapy; Understand concepts for predictable implant esthetics.

The mission of ICOI is to serve the needs of all of

our members, including each segment of the dental implant team, and to provide them with high-quality education to better serve their patients. Hence, the mission of the Hamburg World Congress is to provide the most cutting-edge information that will enable you to deal with the challenges that practitioners of implantology face today.

Biphasic bone graft substitute composite, 60% HA/40% β-TCP, PLGA coated

- Soft from the syringe
- Mouldable in the defect
- Hardens in situ
- 100% synthetic
- Accelerated osteoconduction
- Long-term volume preservation

Welcome Message

Dear Colleagues:

The ICOL is pleased to welcome all dental professionals to Hamburg, Germany, for the 2010 World Congress XXVII meeting. The focus of this meeting will be emerging

topics in implant dentistry. We have invited more than 25 excellent speakers from around the world with the goals of providing you with most current and useful information. Besides the scientific program, we have also arranged several social events so that

you and your family can interact with others and tour the historic and beautiful city of Hamburg. Please join us not only for a great educational experience but also for unforgettable tourism in this ancient European city.

On behalf of the entire Scientific Committee,
Dr. Hun-Lay Wang, Chair (left) and Dr. Georg Bayer (right).

-page 1

Issues such as digital planning for proper implant placement, implant complications and their management, tissue engineering for predictable bone regeneration, new innovations in implant therapy and predictable implant aesthetics, etc. Concepts for success will be presented by leading clinicians and members of our scientific community. All presenters will illustrate their views in these assigned subjects and then, hopefully, support them with appropriate evidence. We can assure you will enjoy this meeting. We look forward to seeing you in Hamburg.

Dr. Hun-Lay Wang and Dr. Georg Bayer, Congress Chairmen

Forum for "Young Implantologists"

There will also be a forum for "Young Implantologists" with a two-hour slot on the main podium. This popular feature provides up and coming speakers the opportunity to present case studies to the entire Congress; it will take place on Saturday morning.

Poster Presentation

A significant number of international clinicians and academicians will take part in the Table Clinic and Poster Presentation competition which will take place during the Welcome Reception on Thursday evening, 26 August. Posters will remain in place throughout the Congress.

The ICOL Scientific Program Committee will consider the following categories for Table Top Clinic and Poster Presentations:

- Basic science and/or clinical research
- Clinical applications, techniques or tips
- Laboratory applications, techniques or tips

Those interested in presenting during this portion of the program should email requests to Dr. Avi Schmitt at druv@perio.org.

Auxiliary Program

ICOL's Member Society, the Association of Dental Implant Auxiliaries (ADIA), will hold a full-day course for staff members on Friday, 27 August.

The ADIA Symposium is aimed at providing information essential to dental assistants working with implant patients. The program will eval-

uate the interaction of implant patients and team members and review methods the team can apply to help guide patients through implant therapy and its various components. The program will address all aspects of implantology including case presentation, answers to commonly asked

questions, treatment planning, surgical, prosthetic and maintenance procedures. The Friday Auxiliary session for the ADIA Certification Program

Awards Ceremony

honoring ICOL and DGOI advanced credential members will precede the Friday dinner party.

Photo: Dr. Hun-Lay Wang, Dr. Georg Bayer

will also offer translation from English into German.

Social Program

The social program will include the Welcome Reception on Thursday night and a Harbor Party aboard the ship, Rickmer Rickmers on Friday night. The

Exhibiting

Exhibitors will introduce innovative products in implantology. Companies interested in exhibiting at this Congress should visit ICOL's website www.icol.org or the Congress site www.kiss-workshopcongress2010.com.

Hamburg—the Gateway to the World

The second largest port in Germany and in Europe, Hamburg is often called the Gateway to the World. This cosmopolitan city is located on the Elbe River which leads into the North Sea. While parts of the city overlook Alster Lake with its promenades, elegant shops, hotels and restaurants, Hamburg also boasts a large canal system increasing its commercial reach and adding to the European charm. A cultural center, Hamburg boasts 50 art museums, several opera companies and musical theaters and is home to the infamous St. Pauli Entertainment region. ❖
