

# Main Podium Program ICOI World Congress 2010

**Afternoon Session**  
Thursday, 26 August 2010

**Digital Planning for Proper Implant Placement**

Session Host: Dr. Scott Ganz

14:00-14:45

**4-D Implant Planning**

Dr. Erika Sivarides

14:45-15:30

**Treatment Through Proper—Restoratively Driven Planning**

Dr. Scott Ganz

15:30-16:00

**The 4-D Implant Concept, Implementation in the Implant Practice**

Dr. Ady Palti

16:00-16:30

**Break with Exhibitors**

16:30-17:00

**Immediate Implants—Planning and Extraction Socket Morphology, Guided Treatment for Implant Esthetics**

Dr. Gustavo Jurdich

17:00-17:30

**3-D Diagnostics and Implant Navigation: Simplified Method for Surgical Guide Preparation**

Dr. Mariusz Dudek

17:30-18:00

**Destination... Digital! From Plans, Scans, and now Digital Impressions**

Dr. Natalie Wang

18:00-18:30

**Novel Implant Designs Can Overcome Problems Related to Bone Height and Angulation**

Dr. Hugo De Bruijn

18:30-20:00

**Welcome Reception/ Tabletop clinics**

**Morning Session**  
Friday, 27 August 2010

**Implant Complications and Their Management**

Session Host: Dr. Hans-Lay Wang

8:00-8:45

**Complications in Maxillary Sinus Augmentation Surgeries**

Dr. Pablo Galindo-Moreno

8:45-9:30

**Peri-implantitis—An Opportunistic Infection**

Dr. Nikolaus Lang

9:30-10:15

**Management of Implant—Complications and Peri-implantitis**

Dr. Hans-Lay Wang

10:15-10:45

**Break with Exhibitors**

10:45-11:30

**Implant Biomechanical Complications**

Dr. Carl Misch

11:30-12:30

**Implant Wires: Rules of Engagement in the Esthetic Zone**

Dr. Henry and Maurice Salama

12:30-13:30

**Lunch with Exhibitors**

**Afternoon Session**  
Friday, August 27, 2010

**Tissue Engineering for Predictable Bone Regeneration**

Session Host: Dr. Carl Misch

13:30-14:15

**Bioengineering—Approaches to Promote Bone Repair and Osseointegration**

Dr. William Giannobile

14:15-15:00

**Tissue Engineering for Predictable Bone Regeneration**

Dr. Michael Rody

15:00-15:30

**Break with Exhibitors**

15:30-16:00

**Tooth Removal, Tissue Regeneration and Crown Height Space—1,000 Cases**

Dr. John Giblin

16:00-16:30

**Bone Regeneration for Free Esthetic Restoration; Success, Failures and Ways Out**

Dr. Zeen Omselman

16:30-17:00

**Sinus Augmentation Without Bone Graft; Human and Animal Evidence**

Dr. Dong-Seok Sohn

17:00-17:30

**Augmentation in the Esthetic Zone**

Dr. Stephan Bauer

## Pre-Congress Courses

Thursday morning  
26 August 2010

--	---	---

18:00-19:00

**Awards ceremony**

20:00 to midnight

**Harbor Party**

**Morning Session 1**  
Saturday, 28 August 2010

**Young Implantology Program**

Session Host: Dr. Markus Steigmann

10:00-10:45

**Break with Exhibitors**

**Morning Session 2**  
Saturday, 28 August 2010

**New Innovations in Implant Therapy**

Session Host: Dr. Markus Steigmann

10:45-11:30

**Innovations in Ridge Preservation:**

**Afternoon Session**  
Saturday, August 28, 2010

**Predictable Implant Esthetics—Concepts for Success**

Session Host: Dr. Ady Palti

13:15-14:00

**Short Implants: A Challenge for Surgeons and Prosthodontists**

—The Frankfurt Concept

Dr. Georg H. Nentwig and Paul Weig

14:00-14:30

**Modern Flap Design for the Aesthetic Zone**

Dr. Markus Steigmann

14:30-15:00

**Bone Blocks Straight Out of the Pack—Does this Work? 5 Years of Clinical and Histological Experience**

Dr. Markus Schäfer

15:00-15:30

**Break with Exhibitors**

15:30-16:00

**Immediate Placement, Immediate Reconstruction and Immediate Restoration: A Preventive Concept for the Esthetic Zone**

Dr. Wilfried Wagner

16:00-16:30

**Clinical Management of Complex Esthetic Cases**

Dr. Ricardo Capakli

16:30-17:00

**Current Esthetic and Functional Considerations, for the Treatment of the Edentulous Arch**

Dr. Mario H. Rodriguez

17:00-17:30

**Crestal Bone Preservation for Long Term Clinical Results**

Dr. Mauro Marincola

17:30-18:00

**What is Important Stability? Current Status for Clinical Success**

Dr. Talga Tuzum

18:00-18:30

**Current Trends in Bone Augmentation**

Dr. Murat Yildirim
