Copyright Regulations

ceramic implants international magazine of ceramic implant technology is issued twice per year and is a special edition of implants international magazine of oral implantology — the first issue was published in October 2017. The magazine and all articles and illustrations therein are protected by copyright. Any utilisation without the prior consent of editor and publisher is inadmissible and liable to prosecution. This applies in particular to duplicate copies, translations, microfilms, and storage and processing in electronic systems.

Reproductions, including extracts, may only be made with the permission of the publisher. Given no statement to the contrary, any submissions to the editorial department are understood to be in agreement with a full or partial publishing of said submission. The editorial department reserves the right to check all submitted articles for formal errors and factual authority, and to make amendments if necessary. No responsibility shall be taken for unsolicited books and manuscripts. Articles bearing symbols other than that of the editorial department, or which are distinguished by the name of the author, represent the opinion of the aforementioned, and do not have to comply with the views of OEMUS MEDIA AG. Responsibility for such articles shall be borne by the author. Responsibility for advertisements and other specially labelled items shall not be borne by the editorial department. Likewise, no responsibility shall be assumed for information published about associations, companies and commercial markets. All cases of consequential liability arising from inaccurate or faulty representation are excluded. General terms and conditions apply, legal venue is Leipzig, Germany.

PRECISE 3D-IMAGING

Show what you're made of—with precision of *PreXion*.

EXPLORER PreXion3D

At IDS 2019, the Japanese technology group PreXion successfully introduced their new CBCT system *PreXion3D EXPLORER*. The high-performance system, especially developed for the European and US market, allows for an extraordinary combination of the most precise imaging, great picture detail, low radiation exposure, safe diagnostics and digital planning, covering the entire range of indications in modern dentistry.

CERAMIC EXCELLENCE

CERALOG[®]
SYSTEM

INNOVATIVE

Sophisticated two-piece construction with innovative abutment solution, ceramic-specific design and high-tech 'Ceramic Injection Molding' manufacturing process – that is CERAMIC EXCELLENCE.

- Dual surface texture: Osseointegration and soft tissue attachment
- Two-piece design, screw-retained reversible prosthetic solutions
- Ceramic-specific design with Hexalobe connection
- Innovative PEKK abutment with stress shield reduction
- Ivory colored for highly esthetic restorations
- 100 % quality control

CERAMIC-SPECIFIC
DESIGN WITH
HEXALOBE
CONNECTION
