face
& body _ magazin für ästhetik

Profile

Print Run: 5.000

The publication *face & body* deals interdisciplinarily with all relevant fields and subjects regarding the topic of aesthetic medicine. It builds a bridge between invasive and non-invasive treatment methods and offers a platform covering all areas of aesthetic and plastic surgery, dermatology and cosmetic medicine. By defining beauty as an ever-growing, cross-disciplinary concept, the magazine creates a unique synergy of current research results and practice-oriented application reports. The primary aim of "face & body" is to deepen the understanding of each field and to explore qualitatively new treatment concepts leading to a holistic aesthetic result. Contemporary trend motifs such as youth, beauty and health are illuminated at a high level of expertise and presented in an exclusive and aesthetically pleasing manner.
