implants

international magazine of Oral implantology

Profile

Print Run: 10,000

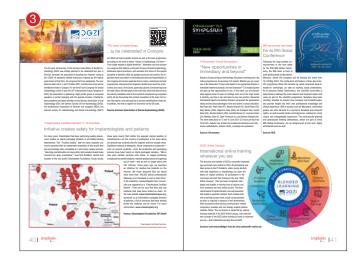

Today, implants—international magazine of oral implantology is one of the most widely distributed dental print publications in the world with a reading audience in about 100 countries. The English language magazine is published in cooperation with the German Association of Dental Implantology (Deutsche Gesellschaft für Zahnärztliche Implantologie-DGZI), the oldest expert society for implantology in Europe, and is geared towards to the international transfer of professional knowledge. In four issues every year, implants inspires its readership with a variety of clinical case reports, an overview of the latest in product innovation, and exciting news from the world of science and research, reflecting the current state of oral implantology. In addition, the editorial office of implants puts great focus on reporting on dental conferences and further training events across the globe, as well as the international activities of DGZI, whose 11,000 members and associates form a vast and internationally-networked community. More than 80 per cent of hard copies are shipped directly to DGZI members and subscribers. Apart from that, implants can be found at more than fifty dental exhibitions and congresses worldwide.

Sections
