

3Shape TRIOS

Patient engagement you can sense.

“ We’re creating an
emotional connection
with our patients.

Dentist, Chatswood, Australia

**Boost case acceptance by engaging
– even more – with your patients.**

Together, TRIOS 3D color scans and the TRIOS engagement apps create a perfect opportunity to show patients their unique dentition and help them understand their treatment needs. These visual tools make it easy to personalize patient experiences and address all their concerns. They’ll notice the difference. And you’ll feel the engagement.
