

Imagine the CADabilities

Exocad presented DentalCAD, exoplan and ChairsideCAD highlights at IDS 2021.

■ At IDS 2021, exocad, an Align Technology company, presented highlights of its three core products—DentalCAD 3.0 Galway, exoplan 3.0 Galway for implant planning and ChairsideCAD 3.0 Galway for single-visit dentistry.

The 360 m² booth was a central meeting point for exocad's global community at IDS. The trade show offered a rare opportunity for exocad users to meet specialists and developers from the Darmstadt-based software company in person. Visitors could linger at the booth's dozen software stations, learn about the 3.0

Galway release's highlights and ask exocad's software experts questions.

DentalCAD 3.0 Galway

Visitors experienced the 90 new and 80 additionally optimised features of DentalCAD 3.0 Galway. For example, they had the opportunity to try out the new Instant Anatomic Morphing. This feature automatically adjusts teeth in real time, greatly improving the speed and precision of anatomical tooth placement. Another exciting feature is parametric shape adjustment,

which can transform all tooth libraries from a younger to an older anatomy. At another station, on-site experts demonstrated how the Smile Creator module can automatically recognise facial features using new artificial intelligence-assisted technology. Other demonstrations included: the improved processing of bridge connectors and how multiple connectors can now be adjusted simultaneously, the creation of mock-up tooth set-ups and how the software supports virtually prepared models, and virtual tooth extractions.

Exoplan 3.0 Galway for implant planning

Exoplan 3.0 Galway is a powerful, open and efficient software package for virtual implant planning. Having over 40 new and over 60 improved features, the new Galway version represents a significant expansion of guided implantology possibilities and offers improved integration with exocad's DentalCAD software.

ChairsideCAD 3.0 Galway for single-visit dentistry

During IDS, dentists experienced the widest range of indications in the chairside CAD software market. That is because exocad's ChairsideCAD 3.0 Galway software offers a broad level of indications.

The joint platform with exocad DentalCAD, the world's leading CAD laboratory software, also unlocks unimagined possibilities for digital collaboration with tens of thousands of laboratories. More information can be found at <https://exocad.com/ids>. ◀

▶ For dental professional, who were unable to attend IDS in person, exocad offered live streamings during the show.

▶ IDS visitors had the opportunity to watch a number of live demonstrations at the exocad booth.

▶ At this year's IDS, exocad announced the release of ChairsideCAD 3.0 Galway, the next generation of its easy-to-use CAD software for single-visit dentistry.

▶ "Sharing ideas, discussing improvements, learning about new technologies that is really what IDS is all about," said exocad CEO Tillmann Steinbrecher. (All images: exocad)
