

Guided Tissue & Bone Regeneration

CERASORB® Foam

Resorbable β -Tricalcium phosphate + collagen matrix

Epi-Guide®

Resorbable polylactic acid (PLA) membrane

curasan

Regenerative Medicine

CERASORB® Paste

Resorbable β -Tricalcium phosphate paste + Hyaluronic acid matrix

CERASORB® M

Resorbable, pure-phase β -tricalcium phosphate

Inion®

Resorbable pin fixation system for films and membranes

Osgide®

Resorbable collagen membrane

Ti-System

System for fixation of foils and membranes

Osbone®

Synthetic spongy bone substitute

Stypro®

Resorbable hemostyptic
