NovoMatrix™ Reconstructive Tissue Matrix – the next generation material

NovoMatrix™ Reconstructive Tissue Matrix is an acellular dermal matrix derived from porcine tissue intended for soft tissue applications. The proprietary LifeCell™ tissue processing is designed to maintain the biomechanical integrity of the tissue, which is critical to support tissue regeneration.

Indications

- Localized gingival augmentation to increase keratinized tissue (KT) around teeth and implants
- Alveolar ridge reconstruction for prosthetic treatment
- Guided tissue regeneration procedures in recession defects for root coverage

www.biohorizonscamlog.com

Product features

- Consistent thickness (1 mm)
- Pre-hydrated
- Controlled source

Before use, physicians should review all risk information, which can be found in the Instructions for Use attached to the packaging of each NovoMatrix™ Reconstructive Tissue Matrix graft. NovoMatrix™ is a trademark of LifeCell™ Corporation, an Allergan affiliate. ©BioHorizons. All rights reserved. Not all products are available in all countries.

MinerOss™ A The allograft for outstandingly fast bone remodeling [1]

The scientific evidence shows that allografts are the second best option to patient's own bone compared to other bone substitutes. [2]

Benefits of MinerOss™ A human bone substitute [1, 3–5]

- Optimal osteoconductivity
- Fast graft incorporation
- Complete remodeling potential
