

EXCELLENCE IN IMMEDIACY

Straumann® BLX Confidence beyond Immediacy.

DYNAMIC BONE MANAGEMENT

Intelligent implant concept supporting immediate protocols in all bone types.

ESTHETIC EASE CONCEPT

One connection and under-contoured prosthetics to deliver esthetics with ease.

REAL CONFIDENCE

Backed by long-term scientific evidence for the technologies Roxolid® material and SLActive® surface.

BLX unifies progressive functional design with our high-performance Roxolid® material and the clinically proven SLActive® surface, designed to provide you with confidence for all clinical situations. Innovations like the VeloDrill™ System, Straumann® Dynamic Bone Management and our Esthetic Ease Concept are aimed to significantly improve surgical and restorative workflows.
