VITA Easyshade® Compact – The exact shade in the blink of an eye.

3384 E

VITA

It's digital, cable-free, lightweight and mobile – there are a good many reasons for choosing the VITA Easyshade Compact. And every one of these is in itself a winner. With the new generation of digital shade measurement you determine and check the tooth shade in a matter of seconds. The VITA Easyshade Compact is

designed for all shades of the VITA SYSTEM 3D-MASTER and the VITA classical A1-D4 shades. This high-tech instrument impresses with a great accuracy of measurement using state-of-the-art spectrophotometric measurement technology. See for yourself. Find out more at www.vita-zahnfabrik.com.
