

# The DGL invites to its 24<sup>th</sup> International Annual Meeting

from 27 to 28 November 2015 in the Hotel Palace in the city of Berlin. The event is held in collaboration with the 3<sup>rd</sup> Oral Hygiene Day, the 12<sup>th</sup> Annual Meeting of the DGKZ, and the 7<sup>th</sup> International Congress of Aesthetic Surgery and Cosmetic Dentistry (IGÄM) and the 4<sup>th</sup> Nose, Sinus & Implants.

The programme schedule enables the involved companies to offer active participation in the congress, i.e. in the form of workshops. By combining the various meetings, the request of many exhibitors will be met by providing access to a high number of participants. The expected attendance is around 400 participants.

The congress president and scientific director of the 24<sup>th</sup> International Congress of the DGL and LASER START UP is Prof. Dr Norbert Gutknecht of the RWTH Aachen University Hospital.

The objective of the LASER START UP Congress is to introduce dentists to the use of lasers in dentistry and in this context to give an overview of the relevant lasers for dental applications and the respective manufacturers. The focus group of the annual meeting of the DGL is expert users of laser technology from at home and abroad, from the dental offices and the universities.

The laser market can currently be viewed as very positive—this is reflected in a wide range of modern and highly efficient new laser systems. The effort to further integrate laser dentistry into the individual disciplines, such as implantology, periodontics or endodontics, the acceptance of lasers in dentistry will be even more successful.

The joint conference of the 24<sup>th</sup> International Annual Meeting of the DGL and LASER START UP is
