

Dr Rolf Vollmer

First Vice President and Treasurer of DGZI

We are **inviting** you to **the future**

Dear colleagues,

This year, the 48th DGZI International Annual Congress, being held on 28 and 29 September in Düsseldorf, Germany, will also be the 1st Future Congress in Dental Implantology. In cooperation with the congress organiser and publisher OEMUS MEDIA AG, we have developed a diverse and future-oriented further training programme.

On Friday morning, the Future Podium “Visions in Implantology” will kick off the event followed by two live-streamed and moderated surgeries (CAMLOG, Straumann). Table clinics will take place in the afternoon. Participants can attend up to three subsequent table demonstrations, having a choice between 24 table clinics covering diverse, practice-oriented topics. As the number of participants is limited to eight per table, we would like to ask you to inform us about your preferences as soon as possible.

Hard work deserves time off too—after the table sessions, you are thus invited to a casual and relaxed get-together on Friday evening in the exhibition area, where the industry sponsors have put special effort into

their stand designs. Chat with colleagues, expand your network and enjoy the evening, after the day’s events.

Saturday will be dedicated to scientific presentations of renowned national and international experts. All presentations will be simultaneously interpreted into English or German.

As you can see, we have organised a diversified and informative educational event on modern and future-oriented dental implantology. In addition, a two-day programme (hygiene in dental practices, QMC) will run in parallel for your practice team and is being offered at a special team rate. Detailed programme information can be found in the congress programme on pp. 41–43 and at www.dgzi-jahreskongress.de.

Be part of it! We are looking forward to seeing you in Düsseldorf!

Yours,

Dr Rolf Vollmer
